

Human Trafficking

What is Human Trafficking?

3 Types of Trafficking:

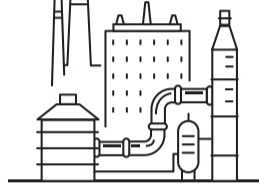

1 SEX TRAFFICKING

Victims forced to engage in sex acts for pay. Truck stops, hotel rooms, rest areas, street corners, clubs and private residences are just some of the places where victims are forced to sell sex.

2 FORCED LABOR

Forced to work for little or no pay. Victims can be found in factories, on farms, in construction work and more. Victims are forced to provide products and services that we use and consume every day.

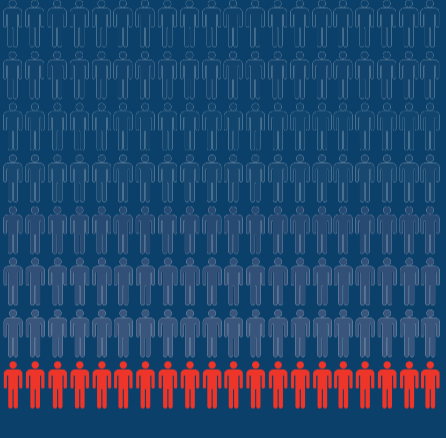

3 DOMESTIC SERVITUDE

Hidden in plain sight working as nannies, maids, domestic help. Traffickers often take or falsify their victim's identification in order to limit their freedom.

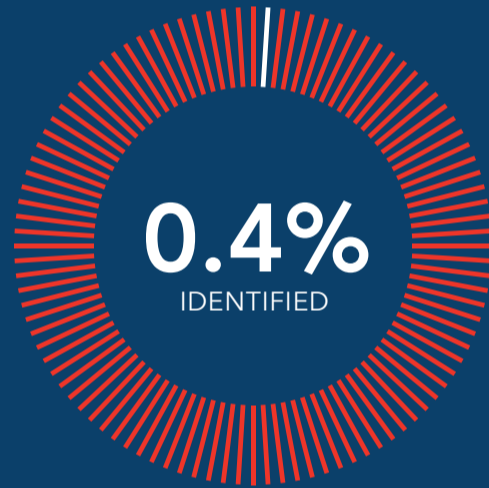

Human trafficking can occur anywhere, including sporting events, theme parks, and many other areas in which the public frequents on a regular basis.

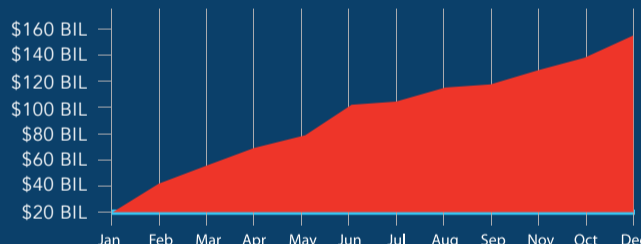

The Numbers Don't Lie

PEOPLE IN MODERN SLAVERY INTERNATIONALLY
20-40 MILLION

Only 0.4% survivors of human trafficking cases are identified, meaning that the vast majority of cases of human trafficking go undetected.
